Discover the **Fypon®** advantage.

Fypon makes homes better with durable, weather-resistant decorative millwork solutions that are engineered for ease of installation, provide long-lasting low maintenance, deliver performance for long-term value and are backed by a lifetime limited warranty for peace of mind.

THE RESOURCES YOU NEED

Building professionals trust Fypon to deliver outstanding customer service and support. We provide:

- An industry-first quote package program with quantity pricing tool.
- Support from Fypon experts and answers to common installation questions.
- Takeoff services for historical restorations, replicas or any unique profile that fits your home or commercial application.

For more information, contact FPS@fypon.com

TAKEOFF SERVICES FOR ARCHITECTS AND BUILDERS

Fypon offers architects and builders a free takeoff service, allowing busy contractors more time to focus on their projects. Included in our quote package is a color-coded takeoff and an estimate sheet with pricing.

Fypon also offers customers custom products if their project is \$10,000 list price or higher. This can include a combination of custom and stock products.

For more information, contact FPS@fypon.com or call 1.855.397.6647.

CUTTING AND MILLING

Fypon polyurethane products can be cut and trimmed with standard woodworking tools, including table saws, circular saws, jig saws, band saws and miter saws. Trimming product will remove the smooth finish and create an exposed polyurethane edge. This edge must be primed to protect the exposed polyurethane. Fypon polyurethane products must be finished with paint or stain within 90 days of installation to protect the product from discoloration from the sun.

For more information on the installation and care of Fypon products, visit fypon.com.

INSTALL

Installation instructions for all Fypon products can be found on our website at fypon.com/install.

REMEMBER TO ORDER ADHESIVE

A urethane-based adhesive must be used on all polyurethane joint surfaces.

Fypon recommends Loctite® PL Premium® Adhesive. For PVC products, such as column wraps, Fypon recommends Duo-Sil® adhesive and caulk. See pages 231 and 282 for ordering information.

Increasing Curb Appeal

We wanted to find out how much of a difference Fypon, polyurethane decorative millwork can make on a home's perceived value. So, we asked an independent research firm to reach out to 252 real estate agents across the U.S. Depending on home style and type of millwork, the survey showed real estate agents' perceived value of a home could increase by as much as 21% (and sometimes more).*

Fypon decorative millwork can help enhance and highlight your home's architectural style while adding curb appeal. Not only does Fypon make a great first impression but, when well selected, our product can give an extra boost to your home's perceived value and potentially support a higher listing price.

PERCEIVED VALUE

When well-selected decorative millwork is added to a home, the survey showed real estate agents' **perceived value** of a home could increase by as much as **21%**. That's a potential increase of up to **\$63,000** on a **\$300,000** home.*

CURB APPEAL

According to most **real estate agents** and trade professionals in a recent survey, "**curb appeal**" is one of the **top three factors** for home buyers.*

40% MORE LIKELY

40% of surveyed consumers said they were more likely to buy a home with enhanced **decorative millwork** like what is offered by **Fypon**.*

*Not a guarantee of investment returns, increase in value or selling price. See 2021 Fypon National Home Valuation Study surveying consumers and industry pros about perceived home value estimates based on exterior appearance. Not based on actual home sales data. Results may vary based on region, millwork style and home style. Study was commissioned by Fypon and conducted by the Farnsworth Group, an independent research provider.

Featured Products

SMOOTH BEAM MANTEL

Offering a clean focal point for any space, our smooth beam mantel allows you to create a truly custom look for your home. See pages 132-133 for more details.

STEPPED MANTEL

With its tiered design, our Stepped mantel draws attention upward, putting greater emphasis on the verticality of a space. See pages 134-135 for more details.

CLASSIC MANTEL

Recreate the stately appeal of traditional ornamentation within your own home using our Classic mantel. See pages 136-137 for more details.

Featured Products

LOUVERED SHUTTERS

Enhance your home's curb appeal with the classic appeal of Louvered Panel shutters to create a consistent style from your windows to your entryway. See pages 24-25 for more details.

RAISED PANEL SHUTTERS

Give your entry door additional charm with the flexible style of Raised Panel shutters. Available in a smooth finish. See pages 26-27 for more details.

Featured Products

GABLE PEDIMENTS

Add a charming touch to any home's exterior with wood-grained **Fypon®** gable pediments. Choose from wood-grained **Burnham**, **Meier**, **Sullivan** and **Asher**, as well as our flat-style pediments available in smooth and wood-grained textures. Explore available sizes on pages 156-161.

Featured Products

WOOD-GRAINED FLAT GABLE PEDIMENTS

Fypon® wood-grained flat gable pediments are available in a variety of roof pitches, pairing perfectly with any Craftsman-style home. Learn more on page 162.

SMOOTH FLAT GABLE PEDIMENTS

Perfectly blending classic style with modern versatility, Fypon® smooth flat gable pediments draw lines of sight to the most important details of your home. Learn more on page 163.

SMOOTH BEAMS

Add classic architectural charm to any home with Fypon® smooth beams. Learn more on page 142-143.

Featured Products

WOOD-GRAINED BEAMS

Fypon® wood-grained beams give any room a distinct rustic charm without the hassle of wood. Available in four distinct styles. Learn more on page 146-153.

BEAM STRAPS

Beam straps can be used to add an authentic, rustic look to wood-grained beams. See page 154 for details.

Featured Products

SMOOTH & WOOD-GRAINED BRACKETS

Fypon® offers brackets that can easily be added to a home's interior or exterior for a decorative touch. See more on pages 166-174 and 190-192.

Window & Door Trim

An unforgettable first impression.

Transform the look of any home with Fypon window and door trim. Designed to work together, these pieces are quick and easy to install.

Window & Door Trim

How to Use This Section

Where applicable, part numbers are shown for products with attached accessories, or other available unattached accessories are referenced or shown with the product.

HOW TO ORDER TRIMMABLE CROSSHEAD

EXAMPLE

1 Determine height.	6" high
2 Determine breast board width of crosshead.	36" width
3 Select end cap width. End cap widths should coordinate with pilaster or moulding on either side of door / window. If no moulding is used, then any end cap can be selected.	CHC4X6 (Coordinating over 3-1/2" flat trim.)
4 Calculate trimmable crosshead; account for end cap. Crosshead breast board width - (end cap back surface x 2) = trimmable crosshead.	36" - (2-1/2" x 2) = 31" required*
5 Select trimmable crosshead.	CHT36X6
6 Optional: Select accessory moulding / keystone.	K6M and MLD716-12

How to Order

DOOR TRIM & ENTRANCE SYSTEMS

When ordering door trim, first measure the door unit to be trimmed. The unit can be measured with or without brickmould; however, the brickmould is essential when using a storm door. Next, choose the desired pilaster style and size. Finally, choose a pediment or crosshead that is wide enough to span the opening plus the brickmould and pilasters or flat trim. Add desired accessories to complete the look.

WINDOW & DOOR TRIM ACCESSORIES

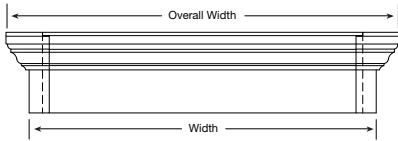

Keystones, dentil trim, trim strip and bottom trim accessories are available attached to standard products as fabricated products. A keystone can also be ordered as an unattached accessory.

*End cap back surface.

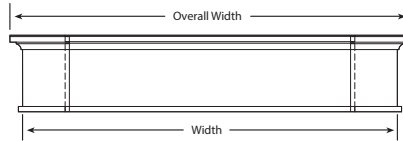

Note: Always consult the local building code authority to determine suitability of products to meet specific project requirements.

SH2PHLR12X24RS

Note: Minimum height for Quarter Round shutters is double the width of the shutter.

SH2PHLR14X28RS - 14" = width of shutter and 28" = height (twice the width).

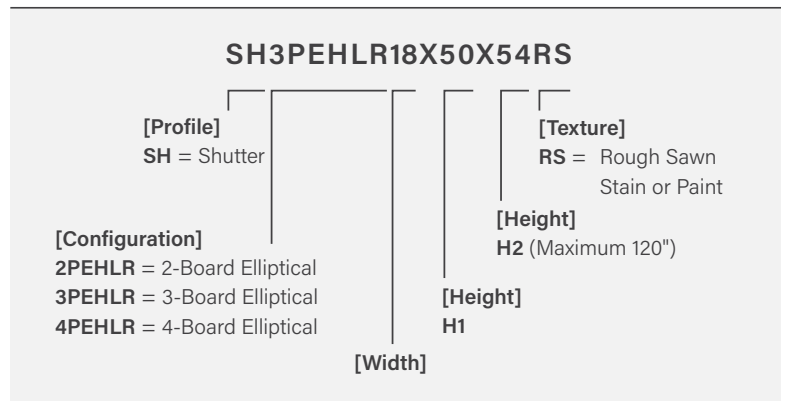

Elliptical Shutters – Board & Batten

Rough Sawn Cedar

Part Number Logic

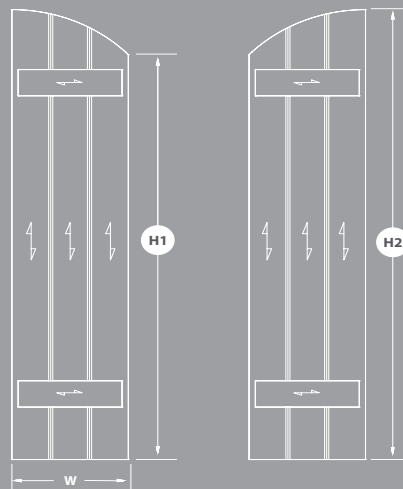

Note: Minimum height (H2) for Elliptical Board & Batten shutters is double the width of the shutter.
 Example: SH3PEHLR18X35X36RS - 18" = width of shutter and 36" = height (twice the width).
 If a specific radius is required to complement an elliptical-shaped window, contact your customer service representative to order.

To order an Elliptical Board & Batten shutter that complements the arch of the window, provide measurements of **H1** (in 1/4" increments) and **H2** (in 1" increments) in your part number. See drawing for specific measurement points.

Example:
SH3PEHLR18X50X54RS

W
H1
H2

Craftsman Cove Crosshead

HOW TO ORDER

- 1 Determine height.
- 2 Determine breast board width. When installing over side trim CHCCC6X9BT-5 coordinates best with 5-1/2" pilaster and 5-1/2" wide trim.
- 3 Select end cap width.

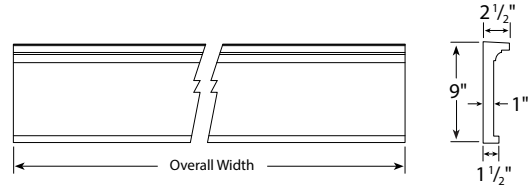

Trimable

- Our Craftsman Cove crosshead line includes a 9" height, measuring 36", 48", 144" and 216".
- End caps do not come standard with trimmable product. They must be ordered. 3-1/2" or 5-1/2" end caps are optional; complement standard trim widths.
- End caps overlap crosshead.
- Crosshead and end caps may be routed.

9" Craftsman Cove Crosshead

Trimable

Part Number	Overall Width
CHCCT36X9BT	36"
CHCCT48X9BT	48"
CHCCT144X9BT	144"
CHCCT216X9BT	216"

CHCCC6X9BT-5*	7"	5-1/2"	1/2"

*Pack quantity of five pair (10 pieces total).
Note: End cap overlaps the trimmable crosshead.

Distinction Crosshead

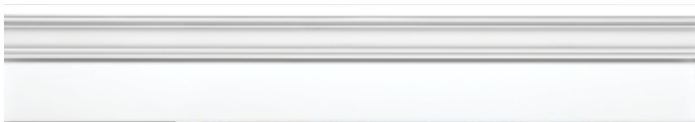

Trimmable

- Distinction trimmable crossheads are available in heights measuring 6" and 9", and widths measuring 36", 48", 144" and 216".
 - 36" and 48" widths allow for ease of handling and quick installation.
 - 144" and 216" widths can be cut to any length, minimizing waste in the field.
- End caps overlap the trimmable crosshead.
- End caps may be routed.

Mouldings

How to Use This Section

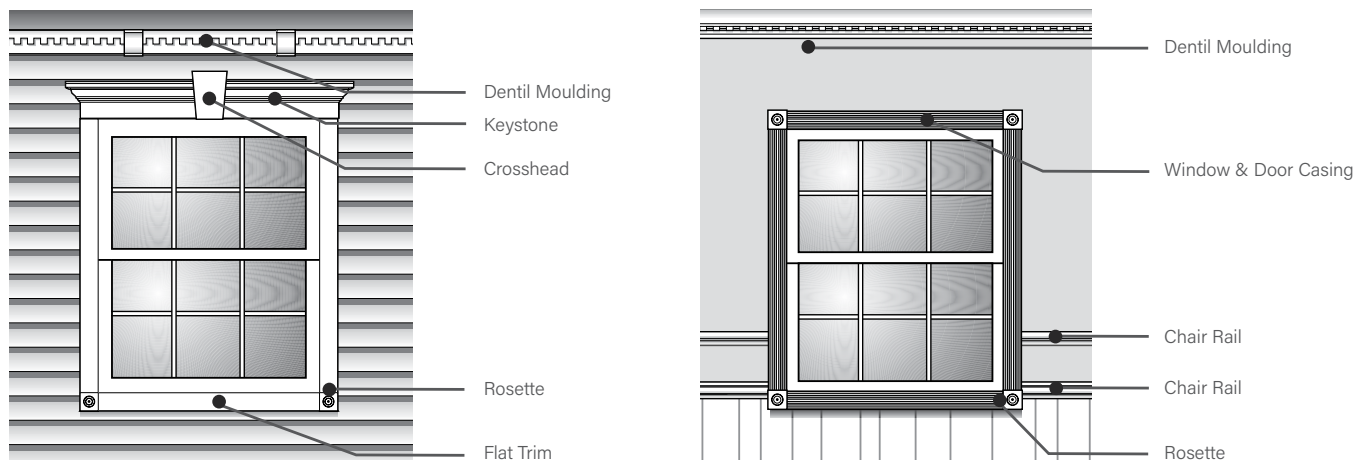

The products in this section of the catalog are organized by moulding type. You can find a variety of products to match the aesthetics of almost any application conveniently grouped together. Where applicable, groups of mouldings are further sorted by height, from smallest to largest.

How to Order

MOULDING ACCESSORIES

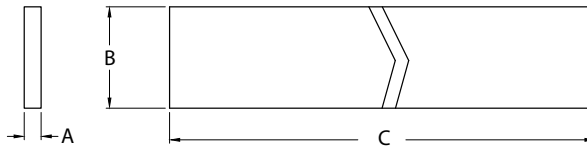

Accessories are available to help make moulding installations quick and easy. Rosettes can be used between moulding lengths to eliminate the need for patching to create smooth seams. All rosettes are unattached and must be ordered separately.

Moulding Applications

Smooth Flat Trim

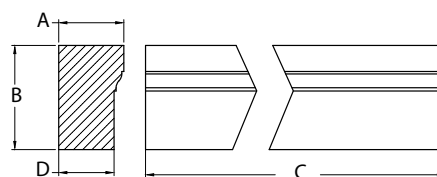

Part Number	Thickness (A)	Width (B)	Length (C)	Accessories	Qty per box

Decorative Millwork

How to Use This Section

The products in this section of the catalog are organized by product type. You can find a variety of products to match the aesthetics of almost any application conveniently grouped together. Where applicable, groupings of brackets, corbels, rafter tails, beams, dentil blocks and other products are further sorted by height, from smallest to largest.

How to Order

DECORATIVE MILLWORK ACCESSORIES

Some decorative millwork products have accessories available or are an accessory to another product. All decorative millwork accessories are unattached and must be ordered separately.

Smooth Beam Mantel

FEATURES:

- Available in 6" x 8" and 8" x 10" (height x projection) with lengths measuring 60"-90", in 6" increments.
- Hardware kit included.

HOW TO ORDER

- 1 Select profile design.
 - 2 Select size.
 - 3 Optional: Select pitch angle needed.
 - 3 Select pack quantity.*
- Rafter tails are available in five profile designs: Straight, Cove, Slant, Bullnose and Scroll.
 - Available in heights measuring 5-1/2" (6 nominal) and 7-1/2" (8 nominal).
 - Six projections: 12", 18", 24", 30", 36", 42".
 - Optional back cut pitch angles: 4/12, 6/12, 8/12, 10/12, 2/12.
 - Quantities: 4 Pack, 10 Pack.

Part Number Logic:

Louvers

Historic style for any home.

Fypon offers a diverse assortment of decorative, non-venting and functional, venting louvers to complement most architectural home styles. Decorative louvers feature a solid, one-piece design that does not allow air to pass through. Functional louvers are designed to provide additional ventilation, with angled slats and screening to help protect interiors from the elements.

Louvers

How to Use This Section

The products in this section of the catalog are organized by louver style followed by matching trim. Where applicable, matching keystones are referenced for each louver and trim piece. Note: The number of slats and size vary based on louver style and height.

How to Order

FUNCTIONAL LOUVERS

If you are ordering a functional louver, you should order a louver that is approximately 2" larger than your rough opening on all sides. This will allow you to attach the louver to the substrate through the brickmould edge. Functional louvers are slatted for air flow with a screen on the back. Note: Slats are not operable.

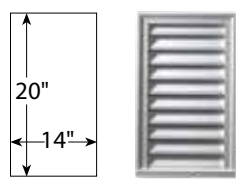

LOUVER ACCESSORIES

Keystones and trim are available attached to standard products as fabricated items. Keystones and trim can also be ordered as unattached accessories by listing the matching part number as a separate line item on your order.

Column Wraps

Coverage with character.

Once you've met the structural requirements of your project, Fypon® column wraps can be used to add an elegant finishing touch. Designed for easy installation around an existing structural support, column wraps are perfect for adding character to a new job or covering an outdated design.

Column Wraps

How to Order

COLUMN WRAPS

Fypon® column wraps are non-structural and designed to wrap around an existing treated wood post or other structural support. Square and tapered styles are available in a variety of heights and are trimmable from the bottom of the shaft up to 3". Flat-panel column wraps can be trimmed to any height.

PremiumSelect column wraps come in a complete kit that includes shaft, cap, base, installation cleat, hardware, tube of adhesive and installation materials. Installation kits for ProSelect column wraps are sold separately.

Flat-pack column wraps ship unassembled for better handling and utilization of less storage space. Choose from square and tapered styles in smooth PVC or wood-grained polyurethane.

COLUMN WRAP ACCESSORIES

Square column wraps come semi-assembled and include a Traditional cap and base, and tapered column wraps come semi-assembled and include a Craftsman cap and base. Six additional cap and base styles are available and can be ordered separately. Caps and bases ship in four separate pieces with pre-mitered corners.

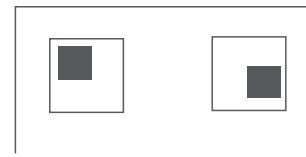

SPECIAL ORDER PRODUCTS

PremiumSelect products shown in the catalog are available in additional sizes. Product may be modified to minimum 6" width to a 24" maximum width. The height may also be modified with a minimum height of 48" to a maximum of 144" height (maximum 108" for tapered).

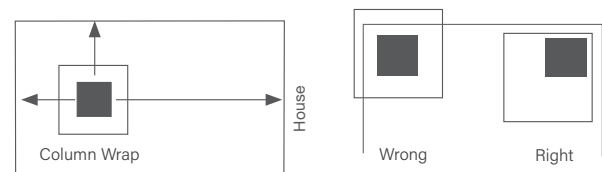

Flexible Positioning Column Wraps

The design features installation cleats on the interior or exterior of the shaft providing ample room around the support post. This allows for positioning adjustments to align several columns in a row or to allow for positioning close to the porch edge. Also, because the column wrap does not come in contact with the structural post, the integrity of the wrap is not dependent on the support.

Before you order, you'll want to measure to make sure you have enough clear distance from the support post to the edge of the porch. The needed space is dependent on the style of column. You will need more space for tapered columns than square due to the larger base.

Flexible positioning around support post.

Allow adequate distance when choosing wrap width.

Installation Kit

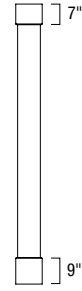

Description	Part Number

Rail Systems

How to Use This Section

For ease of use, the product groupings in this section of the catalog are organized by size and style. Each product chart includes product images, dimensional data and part numbers to help specify, source and sell Fypon® rail systems.

How to Order

RAIL SYSTEMS

Rail kits are available for both straight and stair applications. Each kit includes a top rail, a bottom rail, spindles, a crush block*, brackets, bracket covers and the necessary screws for fast installation. Rail kits can be attached to a wall, newel post or porch post.

Plan your layout by determining the size and configuration of your porch or deck, including any stairs. The most important step to building your order is creating an accurate layout. Check local building codes to determine minimum guardrail height, maximum rail span and structural post requirements for your area. Determine the number of rail and post kits you need to accommodate your layout.

Next, choose your spindle style. Then find the part number of the rail kit that meets your style, length and height requirements.

Finally, determine size and style of any accessories needed to achieve the desired look.

RAIL SYSTEM ACCESSORIES

A variety of accessories are available to create your own unique system, including post kits, post sleeves and porch posts.

If you have an application where additional or unique connections are required, bracket and adapter kits are sold separately.

Individual components are also sold separately.

*6' Stair Rail Kits do not include crush block.

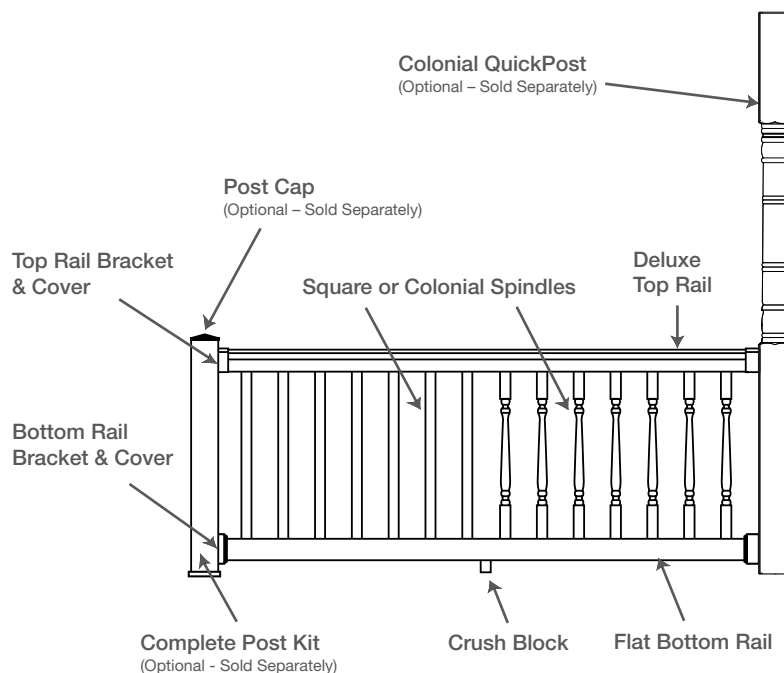

Note: Always consult the local building code authority to determine suitability of products to meet specific project requirements. Stair Rail Kits cannot be attached to 45-degree post applications.

Building Code Compliance

Fypon rail system products are building-code compliant over 30" above ground when rail lengths are 8' or less installed between our Ultra Post Kits, or approved wood post construction. 10' and 12' rail lengths shall only be attached directly to supporting structure (i.e. wall or support column). Applications 30" or less above ground are decorative, and do not fall under any building code or testing standard. The 8', 10' and 12' rail kits include a top rail metal insert that must be used in any installation. 6' rail kits do not require an insert.

Fypon has received confirmation from ICC-ES that that QuickRail Premium guardrail systems comply with the International Building Code (IBC) and International Residential Code (IRC). The published evaluation report ESR-2601 is available online at icc-es.org/report-listing/esr-2601.

Premium Railing

Premium Rail Kits

OPTIONS & FEATURES

- Height Options: 36" or 42" rail height
- Length Options: 6', 8', 10' or 12' nominal lengths
- Spindle Options: Colonial or Square
- Finish Color: White
- Baluster Spacing: Depending on rail length and spindle style selected, the spacing will vary slightly.
- Application: Straight or Stair (32- to 37-degree slope)
- Additional Accessories: Multi-angle brackets and 45-degree adapters are available as special order.

Kit Contents

STRAIGHT & STAIR RAIL KITS

Each Rail Kit includes the following:

- Top Rail
- Top Rail Structural Insert*
(Included in kits over 6' for necessary support.)
- Bottom Rail
- Colonial or Square Spindles
- Crush Block**
- Brackets and Bracket Covers
- Screw Pack

Gate Kits

Gate Kits come with a latch, hinges and mounting hardware, and are available in 36" and 42" heights. The Gate Kit components are pre-cut to fit a 36-1/2" wide opening but can be trimmed for smaller applications. Be sure to check local building codes for any dimension requirements when planning your system layout.

Improved Hinges and Latch

Nylon spring-loaded gate hinges and locking entry latch provide a durable, quiet, lighter weight connection between the gate and posts with added security.

Description	Spindle Style	Gate Width	Kit Height	Part Number
35" x 36" Gate Kit	Square	35"	36"	4436SQDFGK ♦
35" x 36" Gate Kit	Colonial	35"	36"	4436CLDFGK
35" x 42" Gate Kit	Square	35"	42"	4442SQDFGK ♦

IMPORTANT: Gate Kit should NOT be attached to Complete Post Kit. It is recommended to attach the Gate Kit to a structural 4 x 4 or 5 x 5 treated post covered with a post sleeve.
 Note: This product should only be installed on structural surfaces less than 30" or less above ground unless approved by building inspector for higher elevations.

Post Kits

COMPLETE POST KITS (FOR ELEVATIONS LESS THAN 30" ABOVE GROUND)

The Complete Post Kit comes with a standard post mount and can be used to connect rail sections on substrates with elevations less than 30" or less above ground. Complete Post Kits include a cap, base, standard PVC post mount and the necessary hardware for installation on both pressure-treated wood decking and masonry surfaces.

Description	4" x 4"	5" x 5"	
	Complete Post Kit	Inside width 3-5/8"	Inside width 4-5/8"
 <p>Standard Mount</p>	38" Height	40050438PK	40050538PK 
	44" Height	40050444PK	40050544PK 
Hardware Kit	4005ACQHDR	4005ACQHDR	

ULTRA POST KITS (FOR ELEVATIONS MORE THAN 30" ABOVE GROUND)

The ultra post is a structural newel post than can be used on substrates more than 30" or less above ground. Ultra Post Kits include a cap, base, structural post mount and the necessary hardware for installation on either wood / composite or concrete / masonry surfaces.

Description	4" x 4"	4" x 4"
	Wood or Composite Substrate	Concrete or Masonry Substrate
 <p>Structural Post Mount</p>	38" Height	70050438WPK  70050438CPK 
	44" Height	70050444WPK  70050444CPK 

 Special order.

Note: When installed in accordance with written instructions, straight rail systems are code compliant 30" and greater above ground when used with Ultra Post Kit.

System Accessories

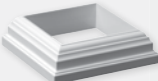

POST SLEEVES

The post sleeve is a one-piece, hollow design that slides over an existing 4 x 4 or 5 x 5 support post.

QuickPost® Porch Post

STRUCTURAL POST WITH LIFETIME FINISH

QuickPost synthetic porch posts are the perfect complement to our rail systems. Featuring the same lifetime finish as all rail system components, the vibrant color is low maintenance and never needs to be painted.

- Structural post features steel insert.
- Choose from traditional Colonial or modern Square styles.
- Trim to fit your project.
- Designed for use with rail systems.
- Very low maintenance.
- Backed by a lifetime limited warranty.

PRODUCT DETAILS

- Shell is composed of UV-protected vinyl.
- Internal core includes a structural, galvanized steel tube.
- Kit includes mounting plates and screws.

PRODUCT OPTIONS

- Sizes: 5" and 6" are nominal for Colonial styles.
- Sizes: 4" and 5" are actual for Square styles.
- Accessories: Trim Kit available (sold separately).

Balustrades, Porch Posts & Columns

How to Order

Balustrade Systems

Our smooth balustrade systems are available in two sizes: 5" and 7". This size designates the width of the top and bottom rail.

Planning Your Layout

BALUSTERS

For each baluster, we have noted a center spacing dimension. This is the maximum center-to-center distance between balusters that does not allow a 4" sphere to pass through at any point. The number of balusters you need can be found by dividing the rail span, in inches, by the center spacing dimension shown under each part.

Note: If dividing gives you a fractional result, always round up to the next whole number as shown in the example.

RAIL INSTALLATION KITS

Each rail section (span between two newel posts) will require two Rail Installation Kits. Rail Installation Kits will connect both ends of one rail to a newel post or column.

Note: Rail Installation Kits will not work on stair applications. Top and bottom rails do not come pre-drilled.

NEWEL POSTS

Each newel post will require one Newel Post Installation Kit to anchor the base of the post, as well as any post tops, balls or trim collars desired.

BALUSTRADE SYSTEM ACCESSORIES

Balustrade system accessories are available to help achieve your desired look. All balustrade accessories are unattached and must be ordered separately.

STRUCTURAL PORCH POSTS & COLUMNS

Structural porch posts and columns are reinforced and have load-bearing capacities as noted. Installation hardware is included. Simply choose the column or porch post desired in a height that is equal to or slightly larger than the required height. Porch posts and columns can be trimmed to various lengths without impacting load rating. Be sure to order the appropriate quantity of porch posts and columns to adequately support the weight of the load they will carry.

Baluster Example

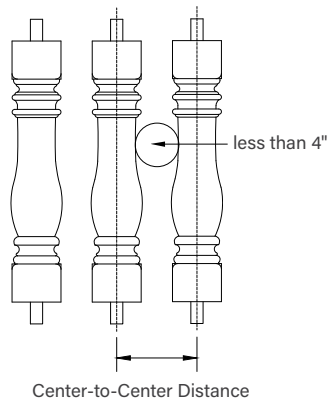

BAL5X24AY requires 7-³/₈"
on-center spacing.

Rail Span ÷ Center Spacing =
Number of Balusters Needed

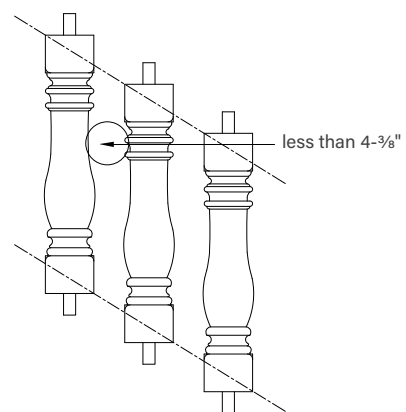

$$96 \div 7.375 = 13.02$$

Round up to 14 balusters.

5" Balustrade System

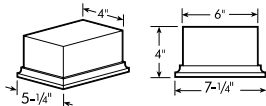

Top Straight Rails

Top Rail	Part Number	Balustrade Rail System	Length	A	B	C	
	BTR5X96	5"	96"	3-1/4"	3-1/8"	4-5/8"	
	BTR5X144*	5"	144"	3-1/4"	3-1/8"	4-5/8"	

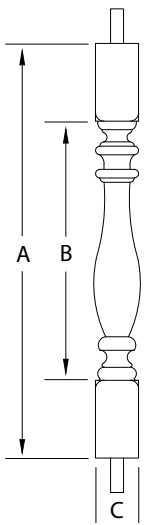

Bottom Straight Rails

Bottom Rail	Part Number	Balustrade Rail System	Length	A	B	C	
	BBR5X96	5"	96"	4-1/2"	3-1/8"	3-3/4"	
	BBR5X144*	5"	144"	4-1/2"	3-1/8"	3-3/4"	

Balustrade Rail Installation Aids

	Part Number	Installation Notes	
	RSB4X4X6 Rail Support Block	Install under the bottom rail at a span of 48" or less. Dimensions: 4" x 4" x 7-1/4" (must be trimmed for height).	
	BRK5 Rail Installation Kit	Connects both ends of one 5" top or bottom rail to support structure. Order two kits per section. Kit Contents: (2) Angle Brackets & Mounting Hardware	

*Maximum rail span distance for field application is 96" with a support block used every 48". 120" and 144" rails are meant to be cut down in field. For example: Reduce waste by ordering 120" to create two smaller 84" and 36" sections.

	BTR7X144*	7"	144"	5-1/2"	5-1/4"	7"

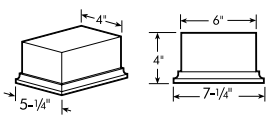

Bottom Straight Rails

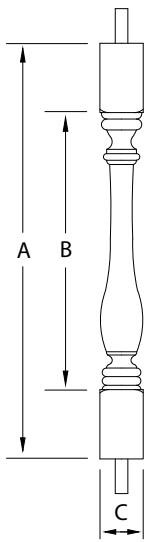

Bottom Rail	Part Number	Balustrade Rail System	Length	A	B	C
	BBR7X96	7"	96"	7"	5-1/4"	5-1/2"
	BBR7X120*	7"	120"	7"	5-1/4"	5-1/2"
	BBR7X144*	7"	144"	7"	5-1/4"	5-1/2"

Balustrade Rail Installation Aids

Part Number	Installation Notes
 RSB4X4X6 Rail Support Block	Install under the bottom rail at a span of 48" or less. Dimensions: 4" x 4" x 7-1/4" (must be trimmed for height). 
 BRK6-7 Rail Installation Kit	Connects both ends of one 7" top or bottom rail to support structure. Order two kits per section. Kit Contents: (2) Angle Brackets & Mounting Hardware

*Maximum rail span distance for field application is 96" with a support block used every 48". 120" and 144" rails are meant to be cut down in field. For example: Reduce waste by ordering 120" to create two smaller 84" and 36" sections.
 Note: Assembly shown with Woodruff Balusters.

Custom Projects, Large Projects and Takeoffs

CUSTOM PRODUCT

- Request a price quote on a custom product by contacting our Fypon Project Specialists (FPS) Department at 855.397.6647 or FPS@fypon.com.
- New projects of \$30,000, which include custom parts, may qualify for a four-week lead time.
- Tools for custom product will be dispositioned within six months of last order date. Any orders after disposition of tool(s) must be requoted by FPS. Contact your Customer Service Representative for more information.

LARGE PROJECT AND TAKEOFFS

- For large projects and takeoffs, our dedicated Fypon Project Specialist Department can assist with price quotes.
- For jobs of \$10,000 and greater, email your elevations to FPS@fypon.com.
- New projects of \$50,000 or greater, consisting of stock and custom products, may qualify for a discount. Contact Customer Service at 800.446.3040 or FPS@fypon.com.

Adhesive & Finishing

A urethane-based adhesive such as Loctite® PL Premium® Construction Adhesive* must be used on all joints when installing urethane products. This will minimize the effects of expansion and contraction on the product. For additional information on adhesives, detailed installation instructions and finishing information, visit fypon.com.

LOCTITE® PL PREMIUM® ADHESIVE

	Part Number	Description
	ADH1	(1) 10.2 oz. Cartridge Loctite PL Premium Adhesive

CONSIDERATIONS FOR INSTALLATION

Fypon reserves the right to make changes to our product with the assurance that we will meet or exceed quality requirements. Changes to product could include standardization across parts that may impact blocking applications, but visual impact will not be noticeable and parts will align. If it is critical to have consistency between parts for installation purposes, please speak with your Customer Service Representative prior to placing your order at 800.446.3040.

	Fypon Polyurethane	Wood	Composite
May Be Placed Against Masonry	Yes	No	No
Above-Grade Distance Requirement**	0"	8"	6"

Versatility**	Suitable options for interior or exterior application	Different grade of material and finish required for outdoor use	

Marks denoted by () asterisk are owned by third parties.

· Loctite PL Premium® is owned by Henkel IP & Holding GmbH.

· Sherwin-Williams is owned by SWIMC, Inc.

**Always consult the local building code authority to determine suitability of products to meet specific requirements, as well as adhesive manufacturer's recommendations for your particular climate and the substrate you are installing to.

***Fypon product must be painted within 90 days of installation or warranty is void.

Finishing Touches

Primer Color Match Available at Sherwin-Williams®

To better service our customers nationwide, we have worked with Sherwin-Williams* to formulate a color and sheen match for our factory-applied primer.

Fypon® White:

Resilience® Exterior Latex*

Product # K42W51

Sheen: Flat

Base: Extra White

No colorant needs to be added to the formula.

Fypon® Oatmeal:

Resilience® Exterior Latex*

Product # K43W00053

Sheen: Satin

Base: Deep Base

Quart and gallon formulas are shown below.

Quart Formula

W1 – White 4/32, 1/64

B1 – Black 7/32, 1/64, 1/128

R2 – Maroon 4/32

Y3 – Deep Gold 15/32, 1/64, 1/128

Gallon Formula

W1 – White 18/32

B1 – Black 31/32, 1/128

R2 – Maroon 15/32, 1/64

Y3 – Deep Gold 63/32

Fypon® Black® Primer:
